200 0 200 400
Feet

- Roads
- Nrcs wetlands
- DNR Wetland
- Buildings
- 900 Contour lines
- Property boundary
- River

Note:

Roads, hydrology, topographic contours, and buildings are based on the USGS 1:24000 quadrangles.

Wetland data is based on DNR and NRCS maps which were digitized by Chippewa County in 1992. Mapping conventions may limit adequate depiction of all currently classified wetlands.

All data is approximate and is provided for planning purposes only; more specific needs may require ground verification by appropriate agencies

Base Map Provided by:
Chippewa County
Land Conservation Dept.
