Chippewa County Announces COVID-19 Community Needs Assessment

Chippewa Falls, WI – April 7, 2020 8:45 AM – Chippewa County Department of Public Health and their community partners have announced a community needs assessment to determine urgent and upcoming needs during the COVID-19 pandemic.

The assessment, which is an online survey, is for anyone living in or with a business in Chippewa County. If you care for someone living in Chippewa County that does not have internet or computer access, you are allowed to take this survey for them as well. The assessment asks if you have needs that are not being met, such as groceries, transportation to appointments, or a loss of income due to COVID-19. If you are interested in helping to volunteer with COVID-19 response, there is a section in the survey to indicate that.

“Chippewa County is a caring community, but one that has many needs right now. I’m asking that everyone take this survey so that we can come together to better serve everyone,” says Angela Weideman, Health Officer/Director for Chippewa County Department of Public Health.

Responses to the survey will be used to help Chippewa County Department of Public Health and their partners write for grant funding and advocate for local needs at the state level. To take the survey, click the link: https://cvtc.az1.qualtrics.com/jfe/form/SV_bf33unvJ4KLVfT. If you have a business and live in Chippewa County, you may take the survey two separate times if you would like to answer from both perspectives. If you need assistance completing the survey, please call the Health Department at 715-726-7900.

The Health Department is your source for up-to-date information on the COVID-19 situation in Chippewa County. Any questions can be directed to covid@co.chippewa.wi.us or call 715-726-7900.
