RENEWAL OF THE CONDITIONAL USE PERMIT:

The Planning & Zoning Committee may renew conditional use permits authorizing nonmetallic mining activities subject to the following:

- (1) Applications for the renewal of a conditional use permit must be submitted at least 45 calendar days prior to the expiration date of the existing conditional use permit. Applications are not required to include any items shown on previously submitted applications, unless the information has changed. Renewal applications may merely indicate no change in such items. Any proposed changes from prior applications shall be required to submit the applicable required information under this division.
- (2) Unless a public informational hearing is requested by a person who owns property within 660 feet of the proposed nonmetallic mining site, no public hearing shall be required to be held with the respect to the conditional use permit renewal application. However, if the application provides for an enlargement of a permitted nonmetallic mining site, or otherwise provides for an alteration or change in the method of operations or reclamation previously approved, a new conditional use permit shall be required and approved by the Committee only after finding such change will not adversely affect properties within 660'.
- (3) Conditional Use Permit renewals may be conditioned upon correction of any unanticipated environmental impacts, which occurred during the term of initial or renewal permits.
- (4) The conditional use permit may be renewed by the Committee for up to an additional 4 years based on the operators compliance with the requirements of the conditional use permit and this division. To ensure compliance, the Department shall bi-annually inspect the nonmetallic mining operation.

TERMINATION:

This conditional use permit shall not be terminated or denied without first providing the operator with a notice of a public hearing and a public hearing at which the operator shall be given the right to respond to any alleged noncompliance of the conditions of the permit and this division. Termination or non-renewal shall occur only in the event of an operator's failure to comply with any material term of the initial or renewed conditional use permit, the Reclamation Plan, the performance standards incorporated herein, or upon a significant change, as determined by the Committee, in material circumstances rendering continued operation under the conditional use permit to be contrary to the health, safety, or welfare of the County.

TRANSFER OF PERMIT:

In the event an operator succeeds the interest of another at an uncompleted nonmetallic mine site, the former operator shall be released of the responsibilities imposed by the current permit issued to the former operator upon satisfaction of the following conditions.

- (1) The nonmetallic mine site is in compliance with the requirements of this division and the permit for the operation of the nonmetallic mine site.
- (2) The new operator assumes the responsibility of the former operator to complete the reclamation of the entire permitted nonmetallic mining site by a written, signed and notarized document and provides adequate financial assurance for approved reclamation of the nonmetallic mine site.

NONMETALLIC MINE SITE ENLARGEMENT:

Any proposed nonmetallic mining site enlargement shall be processed as a new application pursuant to this division. All provisions of this division shall apply to the proposed enlargement.

FAILURE TO OPEN AND OPERATE:

Failure of an operator to take substantial steps to open and operate a nonmetallic mining site within 1 year of the initial permit issuance shall invalidate the permit. A new permit application shall be required for any future nonmetallic mining activity.

ABANDONMENT OF NONMETALLIC MINE OPERATIONS:

Any nonmetallic mine site on which no nonmetallic mining activity has taken place for 24 consecutive months shall be determined to be abandoned. If the abandonment of a nonmetallic mine site occurs, the conditional use permit shall be terminated and all applicable reclamation standards and bonds shall be enforced or executed. Nonmetallic mining operations shall not be conducted within the boundaries of the previously permitted nonmetallic mine site, unless a new nonmetallic mine permit has been issued under this division.

WRIT OF CERTIORARI

Any person or persons jointly or severally aggrieved by this decision of the Planning & Zoning Committee or any taxpayer, or any officer, department, board or bureau of the County, may commence an action in the circuit court for writ of certiorari to review the legality of such decision.
