Sale Area Description:

The boundaries of this sale are marked with a red paint line. This is the final phase of an Oak Shelterwood Harvest system implemented to regenerate an oak stand. The first phase of this shelterwood system was completed in 2000. This harvest operation will remove all of the overstory to release existing oak regeneration. A green tree retention zone was selected. Access is off Highway 40, Sand Lake Road, and Brandstatter lane/304th ave.

Cutting Requirements:

Overstory removal area: Cut all tress one inch in diameter and larger **except** for oak saplings, white oak, and conifers. Do not cut any boundary trees that are painted red.

Special Conditions:

- **Harvest activity is prohibited between April 15th and July 15th due to oak wilt concern.**
- No Harvesting will be allowed if rutting occurs.
- All logging debris must remain within the sale boundaries and keep from wetland
- All landing location must be approved by the county, all merchantable timber removed must be utilized and accounted for through mill slips and log scales.
- Leave all snags (dead trees) unless they present a safety hazard. Use caution to limit the disturbance of Course Woody Debris (CWD) on the forest floor. (i.e.) down logs greater than 12 inches in diameter.
- All hardwood logs, (except aspen) 10 inches or larger on the small end will be charged at the appropriate saw log stumpage rate.
- The contract length is 2.5 years
