

**PUBLIC HEARING VERBAL TESTIMONY**

**PUBLIC INFORMATION HEARING  
E.O.G. RESOURCES  
June 3, 2015**

Mark Berge, 1705 135<sup>th</sup> Avenue, Colfax, WI 54730 (Received verbal testimony 6/3/15)

I'm Mark Berge. I'm in the Town of Cooks Valley, located right across the road from this particular project. I guess before I say anything else, I just want to make everybody realize that I am not a proponent of sand mines. I disagree that we have any here. I think we're ruining our landscape, very special landscape. That's being said, I think this is something that needs to be done and I guess I applaud EOG for doing what they're doing and taking action. I guess my.....as we spoke yesterday, my one concern is about the rate of the flow that is going to be coming out of the mine or out of the ponds when they release the water so....if we could work on that, as we spoke of yesterday. That would be much appreciated, so.....other than that, I guess I don't have anything to say.

Hopefully this will correct the problem that we had occur last year during all the rains.

Thank you.
